## THE DAILY SENTINEL.

RUPUS KING & WM. H. WATSON,
PROPRIETORS.
Under the Name and Firm of Rufus King & Co.

MILWAUKEE: Monday Morning, June 15.

The News on "Ping Ugiles." The News affects to discover K. N. symptoms in the Sentine's republication of a paragraph from the Albany Evening Journal, contrasting Mr. BCCHANAN's prompt interference to quell the Mr. Dechasan's prompt and the refusal of his predecessor, Mr. Pizzer, to prevent and punish the "Border Ruffian" outrages in Kansas. The News represents the Evening Journal as denouncing Mr. Buckanan for this interference and, with the Sentinel, "esponsing the cause of the 'Plug Ugiles.'" Both allegations are false, as usual; the habit of wilful misrepresentation having become chronic with the News. The Albany Evening Journal denounced in the 32verest language, those " Ping Ugly" rioters, who got no more than their deserts. We have no "sympathy" for them, any more than for their prototypes, "the Border Ruffians" in Kansas, whose cause the News so lovingly and steadfastly sustains. These banditti "went over frem Missouri" to Kansas, to shoot down, not "Irishmen" only, but Germans, Americans and all others who dared to resist the concerted attempt to force slavery upon Kausas. In this case, as in the Washington riot, Federal interposition was carnestly and repeatedly invoked, but in vain .--President PIERCE looked quietly on, while the armed ruffians from the Missouri K. N. "Bino Lodges," ravaged Kansas with fire and sword ; and the Border Ruftlan Democracy, the New inclusive, justified this shameful inaction. And now President Buchanan, who did not hesitate to use the Federal troops in protecting the baile: box at Washington, refuses to interfere for the like purpose in Kansas, but insists that the Fre State men there shall bow their necks to the yoke framed by these "Border Ruffian" invaders from Missouri. It was this gross and glaring in consistency that the Evening Journal denounced" and that the Scatinel equally condemus. We believe in meting out to the "Bor der Ruffiane" in Kansas, the same stern punishment that was administered to the "Plug Ug lies" of Baltimore. The News, on the other hand, while affecting to condemn the outrages of the "Plug Uglies," sees nothing to censure in those perpetrated by the "Border Raffags." In this it does but imitate the one-sided justice of the Administration, whose livery

BUFFALO CHARTER ELECTION .- The Buffalo Commercial, a Republican organ, publishes the following wait over the defeat of its party in the Charter election of that city, on Monday. The hatted of the Republicans of that section for the Adverse Chicago, is undisquired by expressed. Adopted Citizens is undisguisedly expressed.

DEATH OF AN OLD NEW YORKER .- JOHN C. Stevens, an old and highly esteemed oltizon of New York, died on Wednesday last, June 10, aged 72 years. His health has gradually failed since the death of his wife, which occurred some two years ago. Mr. Stevens was an intalligent, energetic and public spirited man. In connection with his brothers, Robert and Edwir, he built a number of the finest steamers and fastest yachts that ever floated on the waters of the Hudson. It was thro' his instrumentality that the famous yacht America was built, and under his direction that she sailed in the celebrated Cowes Regatta, besting the whole of the Reyal Yacht Squadron. Mr. S. leaves an estate valued at a million and a half of dollars. As be had no children, the property goes to his surviving relatives, who are already very rich.

HALF FARE ON THE SEVENTHEERTH .- We hoped ! HALF FARE ON THE SEVENTEERING WOOD to be able to announce in this number that persons going to and returning from the Mass Convention would be carried by the several railroad companies at half fare, as such arrangement has been under consideration, but we have no definite information as to the final conclusion. How is it Mr. Sentinet i—Ripon Home.

The Sentinel is unable to say ; but we take it for granted that on this, as on all similar occasions, the Raii Road Companies will be glad to sell Excursion tickets at half the usual fare.

THE GERMANS .- The Winous Republican pays the following high compliment to the Germans, for their good conduct in the late Minnesota

election: "Great praise is due the Gormans for the ac-tive part they took in the election. It shows them to be true to freedom in her greatest need."

WISCONSIN CENTRAL R. R. ROAD.-The Jef-

fersonian states that a "sufficient amount of money has been negotiated upon the Wis. Central Railroad bonds, New York, to purchase the iron and build the road through to that village, which

will be completed as fast as men and means can accomplish it." New Post Offices .- The Department has recently established a new Post Office at Brodhead, in Green county, and also another in the town of

KRY TO THE RED SEA SEIZED .- The British East India Company has seized upon and is forsont must company man seemed against the en-

trance to the Red Sea. The British flag was hoisted there on the 14th gines: of February by the Company's troops. The ostensible cause is that, two years since, an Eng. lish ship which was wrecked on the coast of Berhere was pillaged by the natives. The East India Company summaned the chiefs of the Saumalis to Aden to make reparation and a neary was

He writes that the Danube natigation Co, has about \$17,000,000 invested. They have no side-wheel teamers, 19 propellers, 450 barges, and 150 landing bridge boats and coal tendors. A Just Chiticism.-The N. Y. Commercial Advertiser, a paper by no means favorably disposed towards the Republicans, pronounces this lispassionate judgment upon Gov. WALKER's artizan address to the people of Kansas: Upon the whole, we confers to some disap-

Upon the whole, we confess to some disappointment on reading Governor Walker's heavigural address, and we think the public generally will feel such disappointment. White calling upon the people to bury their differences, and to become mutually tolerant and forbeating, the address is itself, in language and sentiment, intolerant and denunciatory, its views are one aided, and its conclusious partial. The unqualified accuration that none who concessivery in Kanaccusation that none who oppose slavery in Kan-eas are prompted by philanthropy or sympathy with the slave, would alone be proof of this; but the same spirit pervades the whole address Nor does it evince that calmness and sobilety of judgment that augurs well for its effect upon the popular mind. An Event.—One has occurred in the bistory of our Milwaukee & Henleon Railrond. It is the decisive step to build the section from Berlin to Stevens Point. At the late meeting of the Directors, last week, the contract was let, as we are informed, to D. M. Loy, Esq, of Depere Brown County. This gentleman's natecedents give carness of an early completion of his contract.

At the late meeting of the stockholders for the election of the Directors, our townsman, Andrew Warren, was chosen as one of the Board. Mr. Warren, besides being heavily in-terested as a stockholder, has talent of a high order, both financial and administrative, and is moreover vigorously active in whatever he un-dertakes. His election as one of the directors dermas. his obscuren as one of the directors of this road, is halled as significant of its rapid progress eventually to Lake Superior, and cortainly of its speedy advent to this village.—Stevens Point Pinery, June 11th.

"THE IMPROVEMENT" .- The Montello Ledger sars a steam-tng passed up the Fox river last week, with a heavy tow of lumber, part of which was discharged there. It also states that Messrs. We knew that the nearest stram fire engine, (Washington No. 1,) was journed some three squares from the fire, and we did not conceive it possible for the machine to get into operation until that block had been fired. The New in representing the Commercial as a "Republican organ," is guilty of wilful falsebood. SUGAR RIVER VALLEY RAIL ROAD.-We had the pleasure of a cell Saturday lest, from James Campboll, Esq., Vice President of the above road. We shall endeavor to keep pace with the railroad enterprises of the county and report occasionally.—Mouroe Sentinet.

The obstacles which were encountered in the The obstacles which were encountered in the beginning of the journey were very great, the snow lying to the depth of many feet in the mountain passes, on the crust of which, women and children were compelled to trudge many riles, and through which the men with great labor and tell succeeded in drawing the wagons. Under other circumstances the obstacles would have been considered insurmountable, but the dangers of their situation rendered the undertakdangers of their situation rendered the undertaking unavoidable.

Printing Sudscriders' Names of Newspapers. FRISTING SUSCERIBER NAMES OF SEVENCE AND ADDRESS OF THE SECOND SEPARATE SECOND tific American thus speaks of it:

"This invention overcomes one of the difficulties of newspaper operations by patting distinctly in plain letters, the names of subscribers.
The names in fine type are set up in severel
series of rings around a cylinder or drum, so
that one drum in quite a moderate sized machine
will hold about 5000 names. The edge of each in

presented to the wheel, which is recated to presented to the wheel, which is rotated the breadth of one line after each impression, so as to print a new name at each movement. WESTWARD BOUND,-On Monday last, over 50 WESTWARD BOUNN.—On NOCLAY last, OVER 61 covered wagons, drawn by tao, three and four yuke of oxen, possed through this city, bound for the North-West. These carry whole families with their furniture, farming implements, provisions, &c., and are accompanied by droves of cattle. There has been a steady stream of this sort of enigration since the middle of Arril—arriling at least 15 or 20 wagons taily. This would make a total of 4,000 people, who took with them not less than fire or six thousand head of cattle. These emigrants are mostly from Dane, Jefferson, not less than here or six kinds and death of earths. These enjugants are mostly from Dane, Jefferson, Dodge, Walworth, Wauktsan, and Washington counties, where they have sold improved or partially improved lands to Eastern people at good prices, and are now pushing on West to settle on Government land at ten shillings an acre, or such the county beyond for two or three follows an acre, or such as can be bought for two or three dollars an acre. Among the emigrants are a great many Norwe-gians.—Budger State, (Portage.)

Business At Fond ou Lic.—In massing through that portion of our city known as "Lower Town," one can hardly form an idea of the amount of business transacted there during the shipping seasons of the year. It is an interesting eight to happen there about six in the evening, and bud a buildness hauled to be the durk and to happen there about six in the evening, and and a half-dozon boats hauled up to the dock, and all hands busly engaged in loading and unleading goods destined for all portions of the State. Packages for Oshkosh, Meacha, Berlin, and in fact, all places on the Wolf, Fox and Wisconsin fivors, pass through this place every day, and suid these scenes we are almost led to forget that ours is only an inland town commanding the business of marely lakes and theer, instead of baing a commercial metropolis, as fancy paints. oeing a commercial metropolis, as fancy paint

CROPS IN IOWA .-- As far as we can learn the wheat and outs of North Iowa, are coming of magnificently. Corn is small, owing to the lateness of the season, but Iowa land never falls to compensate for stimospheric accidents. We are told that she town, or township, as we would say, of Farmerburg, in this county, taere are over one hundred farmers who have, each, rising over one hundred farmers who have, each, rising one hundred ecres of wheat in the ground. This is creditable to the farmers, and an honor to the country. Old Farmershurg is well named and hard to bear, either in soil or inhabitants.— Merope to merit, by strict care and attention

PROMPTNESS.-There is nothing which so highly recommends Insurance companies, and their Agents, to the configence of business men as to come forward and meet their losses when the damage has been fairly estimated, without quibbling or delay. We mentioned a day or we since, that the damage on Mr. Tesch's store by the late fire was made good to the amount insured by Mesers, Heifenstein and Cra'n, in ices than twenty-four hours after the fire, and we should have said that the inhours after the fire, and Mesers, Lewald and Danenbaum was also prome try paid, by Mr. W. J. Whating, of the Eleca, and Mr. Wheeler, Agent for the Western Massachusetts, New Amsterdam, Bridgeport, and city Fire (of New Haren, Insurance Companies. It is a great recommendation to this route that the N.

MENDING THE GAS PIPE.-Crowds of curious people, thronged Spring Street Bridge, Friday and Satur-day, to see the man in sub-marine armor go "down below" to repair the broken gas pipes laid along the bottom of the river. Howas under water, at different times, from one hour to one hour and a half, without intermission, an kept steadily at work both days. It will take some weeks to get the pipe in perfect repair again. Meantime the company, with commendable promptness, have laid a temperary pipe across the Spring Street bridge, discontinuing it in the day-time and connecting at night (the Bridge being kept closed after 7 P M.) and have thus succeeded in lighting up the West side, in spite of the break in the main pipe.

MEAGRER'S LECTURE. -Quite a large audience embled at the Albany on Saludday night to hear the second and last locture of Thomas Francis Meagher, in our city, and the amount realized from both of his lectures our city, and the attended with which is to be applied to the erection of the new Hospital in this city. Ills lecture was a fine piece of oratory, and drew forth the most replurens applause from his bearers. The larger portion of the au-dence was composed of his own countrymen, who grouted their elequent and patriotic countryman with the warract enthusiasm, and who will long remember their exilerother, with feelings of pride and patriolism.

THERE DAYS LONGER .- If you have not seen the Glass Blowing, go at once, for the manipulations in glass by Frof.
